

ENVIRONMENTAL POLICY

The Environmental Policy of DyMac Global is to balance the need to achieve its business aims with the need to protect the environment. The guiding principles of this policy are:-

- Ensure continued compliance with all UK and EU legislative environmental requirements and other requirements to which the company subscribes.
- Continually assess and improve activities with the specific goal of preventing pollution, minimizing and reducing the environmental impact.
- Ensure the Environmental Policy objectives and targets have equality with other business interests.
- Maintain a programme of Environmental awareness training.
- Communicate the Environmental Policy to employees, suppliers, visitors and interested parties.
- Ensure that its employees have the knowledge, resources and authority to implement these guiding principles.

Commitment to this policy involves almost every aspect of the company's business and its employees and resources shall be made available to implement this.

Signed:  Date: 10/12/16.
